

The University Hospital of Tübingen is a leading center of German university medicine. Every year, around 75,000 inpatients and around 380,000 outpatients are treated. With around 10,600 employees, it is the largest employer in the region. The quality of patient care is certified with the KTQ seal of approval.

For the Institute of Medical Genetics and Applied Genomics we are looking for a

Academic Assistant (f/m/d)

for scientific project management in the Research Management Unit on a full-time or part-time basis (80 - 100 %) for a limited period of 2 years with the option to extend.

The Research Management Unit has been coordinating national and international collaborative research projects since 2004. You will strengthen the team in the ERDERA and 1M1M projects. These projects focus on the development of mutation-specific, genetic therapies for (ultra-)rare diseases. A platform for individualised therapy development is to be established to ensure the safe, standardised and timely production of the required antisense oligonucleotides (ASOs).

Your tasks:

- Coordination of the establishment of an academic platform for the development of mutation-specific, genetic therapies for (ultra-)rare diseases
- Scientific project management in the described subject area
- Close cooperation with international project partners
- Writing scientific project reports

Your profile:

- Biological or medical degree or similar qualification
- Experience in project management
- Ideally experience in therapy development
- Very good English and German language skills
- Very good communication and organisational skills
- Motivated and independent work
- Willingness to travel occasionally

Your advantages with us:

- Work in the diverse environment of a modern university hospital, which focuses on medical research and teaching in addition to patient care
- Future-proof workplace and location as well as attractive remuneration including company pension scheme (VBL) with flexible working time arrangements where possible

We offer remuneration in accordance with TV-L (collective wage agreement for the Public Service of the German Federal States), severely handicapped persons with equal qualifications are given preferential consideration. Interview expenses are not covered. Please note the applicable vaccination regulations.
